Cliff Tarbotton

IDC Contracting Pty Ltd
1/832 Beaudesert Road
Coopers Plains
QLD 4108

Dear Cliff,

Project Reference

As a consultant to Ferrovial York Joint Venture (FYJV) on the Northern Beaches Hospital Connectivity and Network Enhancement Project (NBHCaNE) in Frenchs Forest, NSW, I represent the Head Contractor, FYJV, as an Environmental Officer. During my time on the project I have been significantly involved in ensuring that all work on the project, including that performed by major subcontractors on site like IDC Contracting (IDC), is carried out in compliance with the projects Construction Environmental Management Plan (CEMP), the Environment Protection Act (EPA) and the project Environment Protection Licence (EPL).

Your company has been working on this project for over 27 months and myself and my colleagues continue to be impressed by your professionalism and high level of compliance with respect to all your varied works on the project. We appreciate the involvement of your site supervisory personnel during regular inspections and audits of work areas. They are always proactive with solutions when faced with any problems. They are responsive in identifying areas of improvement and promptly resolving any issues identified.

Your personnel and site management team demonstrate a well-developed understanding of environmental requirements and are quick to identify environmental hazards and implement suitable controls. Your willingness to help establish appropriate procedures and plans that help set the standard on site has set an example for all other sub-contractors.

I wish to commend your efforts and thank you for making our job on this project a little easier.

I would recommend IDC as an exemplary civil earthworks contractor with a solid depth of knowledge and strong commitment to providing the best possible outcomes for a project.

Best regards,

David Stubbs
